IN TWO SECTIONS SECTION TWO

THE AMERICAN WELDING SOCIETY JOURNAL

VOLUME 15 JANUARY 1936 NUMBER 1

INDEX TO VOLUME 14

1935

PUBLISHED BY THE
AMERICAN WELDING SOCIETY, 33 WEST 39TH STREET
NEW YORK, N. Y.

INDEX TO SUBJECTS

Aeronautical Industry Welding—J. B. Johnson, Aug., pp. 14–18.
Aircraft Welding—A "Flying Wing"—Owen C. Jones, March, pp. 2–3.
Alternating Current Arc Welding—K. L. Hansen, Feb., pp. 5–6; A. M. Candy, Feb., p. 7.
Arc, Electrical Characteristics of—S. C. Osborne, Nov., pp. 11–18.
Arcs in Inert Gases—Gilbert E. Doan and A. M. Thorne, April, pp. 22–24.
Automotive—Welding Operations on the Ford V-8—D. P. Connery, Oct., pp. 8–10.

Bend Testing of Welds—A Summary—M. F. Sayre, Dec., pp. 2–10.
Bronze Joints for Copper—H. L. Fetherston, April, pp. 2–4.
Bronze Welding in Maintenance Work—Controlling Heat Effects—Owen C. Jones, July, pp. 6–7.
Bronze Welding Pulp Grinder Shafts—H. A. Walker and D. S. Lloyd, Jan., pp. 9–10.
Building Code for Fusion Welding and Gas Cutting—March, Supplement, pp. 1–16.
Building Code, Resistance Welding—May, pp. 11–12.

Car Construction—A. F. Davis, June, p. 3.
Carbide Residue, Utility of—J. T. Donahoe, April, pp. 25–28.
Cast Iron, Arc Welding of—A. F. Davis, April, pp. 29–32.
Cast Iron Welding—Minoru Okada, June, pp. 10–15.
Cast Iron to Monel—W. P. Durglund, Aug., p. 23.
Chemical Composition in Gas Welding of Ordinary Steels—A. M. Portevin and A. Leroy, Aug., pp. 9–11.
Chromium Steels, Improved Fabrication of 18:8—Donald R. Pratt, Dec., pp. 16–19.
Construction and Repair by Arc Welding—A. F. Davis, Oct., pp. 2–7.
Construction Work, Welding in—A. F. Davis, March, pp. 8–15.
Copper Alloys, Resistance Welded—Ira T. Hook, Oct., pp. 20–25.
Copper and Its Alloys Welded by High Voltage Carbon Arc—C. E. Swift, Jan., pp. 26–29.
Copper Welding Large Joints—H. L. Fetherston, April, pp. 2–4.
Corrosion Fatigue Study of Welded 18:8 Stainless Steel—W. E. Harvey, Arthur J. Ciastkewicz and F. Jerome Whitney, Jr., Jan., pp. 18–23.
Corrosion Resisting Steels in the Petroleum, Chemical and Allied Industries—H. L. Whitney, Aug., pp. 23–24.
Creep Tests for Gas Welded Steel—N. F. Ward, Oct., pp. 13–19.
Cutting—Flame-Shaping Flywheels—W. D. Wilkinson, Jr., June, pp. 21–23.

Distortion—Minimizing Light Gage Steel—J. H. Blaha, Nov., pp. 18–22.

Economy in Welding Designs—Howard G. Marsh, Jan., pp. 11–14.
Economies in Maintenance of Hotel Power and Restaurant Equipment—W. D. Wilkinson, Jr., Feb., pp. 2–4.
Electro Fusion—C. J. Holslag, Aug., pp. 11–12.
Extruding Machine—C. J. Holslag, July, p. 22.

Fatigue Corrosion of 18:8 Stainless Steel—W. E. Harvey, A. J. Ciastkewicz and F. Jerome Whitney, Jr., Jan., pp. 18–23.
Fundamental Research Problems in Welding—August, Supplement, pp. 1–20.

Generator Characteristics Effects on Welding Costs—John H. Blankenbuehler, Sept., pp. 36–38.

Hard Surfacing—Self-Sharpening and Other Effects on Wear Resisting Metals—Chester Mott, Dec., pp. 26–28.

Impact Value of Welds Made by the Arc—A. F. Davis, Dec., p. 19.

Japan, Welding in—Minoru Okada, June, pp. 10–15.

Low Alloys—Welding of Copper, Nickel and Molybdenum Steel—Howard L. Miller, Dec., pp. 28–30.
Low Alloy High Tensile Steels—A. E. Gibson, Sept., pp. 2–8.
Low Alloy Steels—J. C. Holmberg, Sept., pp. 8–10. Discussion by R. A. Bull, Nov., pp. 9–10.
Low Alloy Steels in Pressure Vessel Industry—E. C. Chapman, Nov., pp. 2–6.

Machine Parts Torch Cut and Welded in Tool Equipment—P. H. Danly, Sept., pp. 28–31.
Machinery Construction—Design Procedure for Converting from Cast Iron to Steel—E. W. P. Smith, May, pp. 9–10.
Machinery Construction—Economical Welding Procedure in the Shop—H. Verson, July, pp. 8–9.
Machinery Construction—Economy in Welded Designs—Howard A. Marsh, Jan., pp. 11–14.
Machinery Construction—Steel and Cast Iron in Stress-Transmitting Mechanisms—Everett Chapman, Jan., pp. 2–9.
Machinery—Fabricated Composite Dies—K. Janiszewski, Nov., pp. 7–9.
Magnetic Characteristics of Gas Welded Metal—W. F. Hess and R. L. Ringer, Jr., June, pp. 18–21.
Maintenance Welding—Controlling Heat Effects—Owen C. Jones, July, pp. 6–7.
Maintenance Welding—Handling Distortion Problems—Geo. W. Hettrick, Sept., pp. 11–15.
Maintenance Welding—Rebuilding Pulp Grinder Shafts—Harry A. Walker and D. S. Lloyd, Jan., pp. 9–10.
Maintenance Welding—Repair of Broken Gear Wheel—W. T. Cook, June, p. 9.
Marine Code for Welding and Gas Cutting—Feb., pp. 16–18.
Metallurgical Data on Fusion Welded Joints—A. J. Moses, April, pp. 5–19.
Metallurgical Fundamentals of High-Speed Autogenous Welding—A. B. Kinzel, Aug., pp. 18–20.
Metallurgy of Oxyacetylene Welding of Steel—J. H. Critchett, May, pp. 2–6.

Nickel-Clad Steel Soap Kettle Welded—Geo. A. Cardwell, Jan., p. 24.

Ocean Pier Arc Welded—A. F. Davis, March, pp. 13–14.
Oxyacetylene Welding Practice and Technique—C. G. Bainbridge, July, pp. 18–22.

Peening, Effect on Physical Properties of Welds and Stress Relief—O. M. Harrelson, May, pp. 19–25.
Photoelastic Study of Bending in Welded Seat Angle Connections—Inge Lyse and Douglas M. Stewart, February, Supplement, pp. 16–20.
Physical Properties of Fusion Welded Joints for Class I Pressure Vessels—R. K. Hopkins, March, pp. 4–7.
Pipe Joints Stress Relieved by Induction Heating—A. P. Fugill and D. H. Corey, March, pp. 17–18.
Pipe Lines—H. C. Price, Feb., p. 4.
Piping—High-Pressure, High-Temperature Steam Station—Discussion by H. N. Boetcher, Jan., pp. 29–31.
Piping, Home Heating Modernization—Owen C. Jones, June, pp. 8–9.
Piping—Welded Penstock—A. F. Davis, March, pp. 8–15.
Pipe Welding—Production Methods—G. E. Deatherage and J. B. Latterner, May, pp. 13–17.
Polarized Light—Studies as Applied to Welded Products—E. W. P. Smith, Feb., pp. 21–24.
Porosity in Metal Arc Welding—J. S. Johnson, July, pp. 10–14.
Prediction of Weld Performance—N. F. Ward, Dec., pp. 11–15.
Pressure Vessels—A. S. M. E. Code Requirements—W. D. Halsey, March, pp. 15–17.
Pressure Vessels—Metallurgical Data on Fusion Welded Joints—A. J. Moses, April, pp. 5–19.
Pressure Vessels—Physical Properties of Fusion Welded Joints—R. K. Hopkins, March, pp. 4–7.
Pressure Vessels—Preventing Distortion in Longitudinal Seams—J. T. Phillips, Sept., pp. 26–27.
Pressure Vessels, Stress-Relief of—D. S. Jacobus, May, pp. 6–7.
Pressure Vessel Welding—A. F. Davis, June, pp. 4–5.
Production Methods Used on Welding for Construction Purposes—G. E. Deatherage and J. B. Latterner, May, pp. 13–17.

Qualification of Welding Equipment Operators—Discussion by G. H. Moore, Jr., April, p. 21.
Qualifying Operators—James W. Owens, March, pp. 22–25. Discussion by H. C. Boardman, A. M. Candy, R. E. Kinkead and F. G. Sherbondy, April, pp. 19–21.
Qualifying Operators of Welding Equipment Code—Dec., pp. 25–26.
Qualifying Welding Operators for Structural Work—Gilbert D. Fish, Feb., pp. 19–20.

Research Work in Japan—Minoru Okada, June, pp. 10–15.
Residual Stress Effects on Tension Specimens—R. E. Jamieson, Sept., pp. 16–21. Supplemental Report, Dec., p. 31.
Resistance Flash Welding Tube to Flat Surfaces—M. L. Eckman, July, p. 23.
Resistance High Voltage Condenser Welding—G. I. Babat, Aug., pp. 6–8.
Resistance Spot Welding Problems—J. H. Zimmerman, Dec., pp. 20–25.
Resistance Welding General Purpose Meter—C. Stansbury, Sept., pp. 32–35.
Resistance Welding Machines, Efficiency Power Factor—R. L. Briggs, March, pp. 19–21.
Resistance Welding of Copper Alloys—Ira T. Hook, Oct., pp. 20–25.
Resistance Welding Refrigerators—W. H. Gibb, Aug., p. 13.

Safety Code—Welding or Cutting Certain Types of Containers Which Have Held Combustibles, Feb., pp. 11–14.
Ship Construction, New System—R. D. MacMillen, Oct., pp. 11–13.
Ship Welding—A. F. Davis, June, p. 2.
Ship Welding—A. F. Davis, Oct., pp. 3–4.
Ship Welding—Marine Code, Feb., pp. 16–18.
Ship Welding—New Welded Steel Bulkhead System for Oil

Tankers—G. D. Spackman, July, pp. 2–6.
Spot Welding Electrodes—New Design—G. Komovski, July, pp. 14–15.
Spot Welding Problems—J. H. Zimmerman, Dec., pp. 20–25.
Spot Welding—Bell Telephone Laboratories—Feb., p. 18.
Stress Concentration—Steel and Cast Iron in Stress-Transmitting Mechanisms—Everett Chapman, Jan., pp. 2–9.
Stresses in Welds, Avoiding Concentration of—N. F. Ward, Dec. pp. 11–15.
Stress Relief of Fusion Welded Pressure Vessels—D. S. Jacobus, May, pp. 6–7.
Stress Relieving Pipe Joints—A. P. Fugill and D. H. Corey, March, pp. 17–18.
Stresses—Direct Measurement of Contraction of Butt Welds—O. M. Harrelson and S. B. Slack, Aug., pp. 21–22.
Structural—Arc Welded Bridge Construction—LaMotte Grover, Sept., pp. 21–25.
Structural—Bridge Completed in New Jersey—A. F. Davis, Aug., pp. 2–4.
Structural—Bridge Repair—A. F. Davis, Oct., pp. 6–7.
Structural—Bridge Welding—A Review of the Literature—F. H. Frankland, Oct., Supplement, pp. 1–16.
Structural—Code for Fusion Welding and Gas Cutting in Building Construction, Part A—Structural Steel, March, Supplement, pp. 1–16.
Structural—Connections for Welding—Van Rensselaer P. Saxe, Jan., pp. 15–17. Discussion by A. S. Coombs, May, p. 18.
Structural—Design of Welded Seat Angles—H. Lawson, June, pp. 23–25.
Structural—Investigation of Welded Seat Angle Connections—Inge Lyse and N. G. Schreiner, Feb., Supplement, pp. 1–15. Discussion by C. D. Jensen, Feb., pp. 24–26.
Structural—A Photoelastic Study of Bending in Welded Seat Angles—Inge Lyse and D. M. Stewart, Feb., Supplement, pp. 16–20.
Structural—New University Buildings Erected Entirely by Arc Welding—A. F. Davis, Jan., p. 25.
Structural—Arc Welding Nine-Story Addition to Department Store Building—W. T. Cook, Feb., p. 10.
Structural—Bridge Welding—A. F. Davis, June, p. 6.
Structural—Resistance Welding Code, May, pp. 11–12.
Structural—Spring Grove State Hospital Auditorium Building—Van Rensselaer P. Saxe, June, pp. 17–18.
Structural Steel Frame House Built by Arc Welding—A. F. Davis, Feb., pp. 8–10.
Structural—The Behavior of Fillet Welds When Subjected to Bending Stresses—Norman G. Schreiner, Sept., Supplement, pp. 1–16.
Structural—Welded Steel Arch of 166-Foot Span in Czechoslovakia—F. Faltus, May, p. 8.
Structural Welding in Japan—M. Okada, June, pp. 10–15.
Structural Work, Qualifying Operators for—Gilbert D. Fish, Feb., pp. 19–20.
Symbols, Feb., p. 15.

Tank—Arc Welded Sphere—W. T. Cook, March, p. 15.
Tank Welding—Arc Welded Bubble Tower—A. F. Davis, March, pp. 9–10.
Tank Welding—Minoru Okada, June, pp. 10–15.
Tantalum Sheets Welded by the Arc—A. F. Davis, March, pp. 10–11.
Testing Welded Seams by Milling Apparatus—E. h. H. Schmuckler, July, pp. 16–17.
Testing Welds—James W. Owens, March, pp. 22–25. Discussion by H. C. Boardman, A. M. Candy, R. E. Kinkead and F. G. Sherbondy, April, pp. 19–21.
Testing of Welds—A Review of Literature—M. F. Sayre, Aug., pp. 4–6.
Thermit Fells Skyride Tower—Merritt L. Smith, Oct., p. 7.
X-Ray—Looking through Welds—M. B. Adrian, Aug., pp. 12–13.

INDEX TO AUTHORS

ADRIAN, M. B.—Looking through Welds, Aug., pp. 12–13.
AMERICAN BUREAU OF WELDING—An Investigation of Welded Seat Angle Connections—Inge Lyse and Norman G. Schreiner, Feb., Supplement, pp. 1–15.
A Photoelastic Study of Bending in Welded Seat Angle Connections—Inge Lyse and Douglas M. Stewart, Feb., Supplement, pp. 16–20.
Discussion on "Investigation of Welded Seat Angle Connections"—Cyril D. Jensen, Feb., pp. 24–26.
Arcs in Inert Gases—G. E. Doan and A. M. Thorne, April, pp. 22–24.
Effect of Peening on Physical Properties of Welds and Stress Relief—O. M. Harrelson, May, pp. 19–25.
Magnetic Characteristics of Metal Deposited by the Oxy-acetylene Welding Process—Wendell F. Hess and Robert Lee Ringer, Jr., June, pp. 18–21.
The Design of Welded Seat Angle Connections—Flexible Type—Heath Lawson, June, pp. 23–25.
The Development of Weld Testing as Indicated by Published Literature—M. F. Sayre, Aug., pp. 4–6.
Direct Measurement of Contraction of Butt Welds—O. M. Harrelson and Searcy B. Slack, Aug., pp. 21–22.
A List of Fundamental Research Problems in Welding, Aug. Supplement, pp. 3–20.
Some Residual Stress Effects in Static Tension Specimens—R. E. Jamieson, Sept., pp. 16–21.
The Behavior of Fillet Welds When Subjected to Bending Stresses—Norman G. Schreiner, Sept., Supplement, pp. 1–16.
Advantages of Welding in Continuous Structures—Inge Lyse, Oct., Preprint, pp. 3–5.
Tests to Determine the Feasibility of Welding the Steel Frames of Buildings for Complete Continuity—W. M. Wilson, Oct., Preprint, pp. 12–22.
Report of Creep Tests for Gas Welded Steel—N. F. Ward, Oct., pp. 13–19.
Bend Testing of Welds—A Summary—M. F. Sayre, Dec., pp. 2–10.
Spot Welding Problems—J. H. Zimmerman, Dec., pp. 20–25.
AMERICAN WELDING SOCIETY—Welding or Cutting Certain Types of Containers Which Have Held Combustibles, Feb., pp. 11–14.
Bulletin on Symbols, Feb., p. 15.
Marine Code for Welding and Gas Cutting—Part D, Feb., pp. 16–18.
Code for Fusion Welding and Gas Cutting in Building Construction Part A—Structural Steel, March, Supplement, pp. 3–16.
Code for Resistance Welding of Structural Steel in Building Construction, May, pp. 11–12.
Bridge Welding—A Review of the Literature—F. H. Frankland, Oct., Supplement, pp. 1–16.
Proposed Uniform Test Procedure for the Qualification of Operators of Welding Equipment, Dec., pp. 25–26.
